Appointments

Debbie understands day to day life for all of us is full of duties and activities that stretch us beyond the point of simply being busy. Additionally, the added stress of problematic situations that bring individuals to counseling will undoubtedly add to that stress burden. Debbie strives to be sensitive and accommodating to your scheduling needs working to find a time that suits your schedule. She asks that you also try to be flexible in scheduling as she may from time to time ask if you can adjust an appointment.

Please understand Debbie stays booked and is currently turning clients away to other specialists in the area to accommodate you as a client. A basic responsibility is keeping the commitment of attending your sessions on time. Therefore, if you make an appointment, please commit to keeping it except if you are sick and likely contagious. If you must cancel for any reason, **appropriate cancellation is at least 48 hours prior to your scheduled appointment.** This gives Debbie the opportunity to place another individual who desires an appointment in your slot.
